"My Friend From India" to
Be Presented This
Week.

McUTCHEON PLAY AT THE ACADEMY

"Brewster's Millions" Second At-
traction of Season at Playhouse.
Casino Reopens Tomorrow.

The expected production of H. A. DuSouchet's notable farce, "My Friend from India," will be made tomorrow night by the Columbia Players.

This play is said to be one of the finest of farces. Following its production in New York where it attained a record-breaking run, it was acknowledged to be that it is the most delightful of modern plays. The second act, with its novel mirror scene, is considered unparalleled.

A feature of the performance tomorrow night, it is promised, is the growing woman of the company, the leading woman of the company, is expected to give further proof of her taste in wearing apparel. She will appear as Marian Haster, Phillis Sherwood will be seen as Tilly, a part opposite by May Volkes, Florence Huntington is cast as Bernice Underhill.

Of the men, McAlister will have the burden of the work as Augustus Keen Shaver. Everett Butterfield will have another character part.

ACADEMY—"Brewster's Millions."

Imagine a young man trying to spend \$1,000,000 in one year, in order to get \$5,000,000 more. That is what Monty, in "Brewster's Millions," is to present at the Academy Theater this week, beginning tomorrow night.

Written from George Barr McCutcheon's most successful novel, of the same name, the play has also won for itself a distinct reputation. Besides the unique features of the story, the production is considered unusual in its scenic effects. The ship scene in the third act, shows a yacht, tossed in a storm on the Mediterranean. Electrically contributed much, it is said, to the wonder of this achievement in stage management.

Carl Gerard will play the stellar role of the Academy and Miss Grace Nile will be seen as Peggy Gray.

COSMOS—Vaudeville.

Headline the first section of the bill at the Cosmos Theater this week is the singing act of Doyle, White, and DeGroot, who appear in a sketch written for them. On the same program is Jack Synnott, the tramp comedian; Bennett and Sterling, in musical nonsense, Edna Davis, and the Burke brothers conclude the bill.

The feature of the second section is the enunciation of Morey, Robinson and Purty, in comedy sketch entitled, "Two Queens and a Jack." Samuel Phillips, the well-known character delineator, will present imitations of well known dramatic stars.

New motor cars provide an exciting series, and the audience will also be taken on a tour through Paris during the days of the great food, recently.

THREE TIMES BY CUPID'S PART

H. M. Allen, Aged 68, Twice
a Widower, Gets Li-
cense to Wed.

Accepting the general theory that the issuance of a marriage license betokens an approaching marriage, the friends of Henry M. Allen and Mrs. Theresa M. Johnson, the one twice a widower and the other a widow, may prepare to extend congratulations, although Mr. Allen today will not admit any intention to marry in the near future.

Mr. Allen is sixty-eight years old and Mrs. Johnson forty-eight, according to the ages given the marriage license clerk. Both reside at a boarding house at 90 P street northwest, where Cupid, a younger-day acquaintance of the two, again began his work. Inasmuch as the marriage license work has been pursued, it is thought that Mr. Allen will enter upon his third matrimonial venture within a few weeks.

No date has been set for the wedding as yet, however. In fact, the prospective bridegroom did not admit that there's going to be a wedding, regardless of the marriage license. He denied emphatically that the marriage already had taken place, that a license had been issued to Mr. Allen and Mrs. Johnson, none of their friends seemed aware of the romance.

ARRANGE FUNERAL OF AGED INVENTOR

Charles Paige Carter, "The Wizard," Dies of Heart Disease
at Eighty-one.

KINGSTON, N. Y., Aug. 14.—Arrangements are being made today for the funeral of Charles Paige Carter, who died suddenly at his home here yesterday of heart disease at the age of eighty-one years.

Mr. Carter was sometimes called "The Wizard," having invented many small devices and accomplished many things of wonder in mechanics and skill. As an engraver, he wrote the Lord's prayer on one side of a three-cent piece. In 1842 he invented a phonograph, which would transmit the sound of the human voice after it had been recorded on tin foil.

He also invented an instrument known as the chronograph, which he connected with the national observatory at Washington. He was married three times, and is survived by seven children, one of whom is a U. S. Army Major, W. P. Fetter of the battleship Vermont.

Perfectly Moulded Figures

Another Medical Discovery
To get out of condition is detrimental to beauty of form as well as to health. There is a certain flabbiness which robs a good figure of charm and grace. Those who are beginning to grow fat rapidly are never in the pink of condition.

But here medical science has slipped in with a very wonderful remedy—one which not only restores a perfectly moulded figure but gives health and strength. We give the recipe in full for the benefit of our stoutish friends: 1/2 oz. Marmola, 1/2 oz. Fluid Extract Cacao, Aromatic and 2 1/2 oz. Epsom salt. Water.

Any druggist will make up this prescription for you, supply you with the ingredients which you can mix yourself. The dose is one teaspoonful after each meal and at bedtime.

The great virtue of this harmless remedy is that whilst the excess fat is being expelled, the person under treatment has a healthy appetite and does not need to study dietetics or go in for strenuous exercises. The whole system is "refreshed" and rejuvenated, the blood renewed and muscular development restored.

BALTIMORE, Md., Aug. 13.—Richard Bailey Chapman, a young lawyer who is a member of the Baltimore Athletic Club, was charged with the larceny of one peach, valued at 5 cents, the property of Antonio Retaliatta, a fruit dealer.

Because of the little peach Mr. Chapman spent two uncomfortable hours in the central station, and was released only when Justice Johannsen allowed the young lawyer to depart, when he had given his personal bond of \$100.

"The little peach was on a stand in front of Retaliatta's store. The sight of the peaches awakened his gastronomic desires. He purchased six, and when he went to pay he and Retaliatta had an altercation regarding the sixth. 'That peach belongs to me,' asserted Chapman.

"It isn't yours," exclaimed the fruit dealer, becoming excited, 'and if you take it I'll have you arrested.' The lawyer put the six peaches in his pocket and walked away. The fruit dealer ordered Mr. Chapman's arrest. Retaliatta, through his counsel, Vincent Demarco, had the charge withdrawn.
